

This comment is to preserve the K-LOVE radio station. This station is family friendly and necessary in the current cess pool of filth on the radio nowadays. The uplifting music and positive values makes me happy. If it were replaced with an LPFM station many people would be depressed and unhappy. We need more stations like K-LOVE and less depressing, hateful stations for the well-being of our society. This station benefits the overall public because of the inspiring messages and songs provided. Please don't take away K-LOVE especially in the Phoenix area.
